Pipe & Cable Locators

Triad Series: The New Standard in Locating

- High powered digital locator
- Perfect for all aspects of locating
- Multi frequency range 50Hz to 200KHz
- Includes passive modes
- Transmitter carrying case capable of 10 watts

5600-SI: 116 KHz Single Frequency Pipe Locator

- Clear response and pinpoint accuracy
- Includes patented super inductive antenna
- Powerful audio output
- Lighted tracking display
- Has outperformed competition for years

Model 902: Split Box Locator

- Easy to operate
- Includes super inductor antenna
- Lighted tracking display
- Built-in valve box & manhole locator
- Most rugged on the market

902 Subscanner

- Automatic pipe locating
- No hooking up
- One-touch auto tuning
- Great for trench clearing
- Folds into compact size

Model 600: 60Hz Locator

- Passive electrical locating
- Light weight (under 3 lbs.)
- "Peak" and "Null" modes
- No transmitting unit needed
- Includes stereo headset

Metal/Valve Locators

720/820-S: Metal/Valve Locator

- Light weight and easy to use
- Durable and affordable
- Single control operation with clear, easily distinguishable response
- Telescoping handle/indicating meter (720)

7200/9200: Digital Metal/Valve Locators

- Fully automatic operation
- Durable, reliable and self tuning
- Distinguishes between ferrous or non-ferrous
- 7200 includes motion mode feature
- Easiest valve locator on the market

Water Leak Detection

777A: Water Leak Detector

- Most accurate in history
- Rated #1 for slab leaks
- Wide-range adjustable amplifier
- Light weight (2.5 lbs.)
- Hi-impact foam lined case

777B: Water Leak Detector

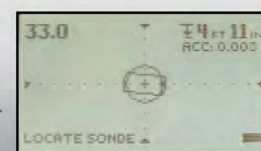

- Complete 777-A w/additional NE-77 noise eliminator
- Ultra sensitive NE-77 foam insulated to block outside noise
- Great for slab and pool leaks

4360: Combo Kit

- Complete leak detection kit
- Trace pipes and locate leaks
- Includes 5600 and 777-A
- All components together in one hi-impact, foam lined case

Sewer Pipe Locating

Triad SC: Sonde and Camera

- Most accurate in history
- Rated #1 for slab leaks
- Wide-range adjustable amplifier
- Light weight (2.5 lbs.)
- Hi-impact foam lined case

5600: Non-Metallic Sewer

- Pinpoint accuracy and depth
- Locates all 116KHz sondes
- Directional antenna
- powerful and affordable
- Locates up to 60' deep

CI-5120: Cast Iron Sewer

- Locates 512Hz transmitters
- Directional antenna
- Signal adjust control
- Light weight (3.5 lbs.)
- Optional carrying case

EMS Marker Locators

MLX: Single Frequency Models

- Individual models for each of the following markers: cable tv, gas, telephone, sanitation/ sewer, water, power
- Optional fabric carrying bag

MLX: Dual Frequency Models

- Combine any two frequencies into a single unit
- Can be used with the marker balls, pegs, or disks
- Optional fabric carrying bag

EMS OMNIMARKERS:

- Power (red)
- Water (blue)
- Sanitation/sewer (green)
- Telephone (orange)
- Gas (yellow)

Goldak Accessories

SR Series: In-Line Transmitters

SR-116Kx & SR-2116x:

- Powerful non-metallic sondes
- Crystallized 116 KHz Freq.
- 116Kx for small entries (range 25ft)
- 2116x for main lines (range 40ft)

SR-512 & SR-2512:

- Cast iron 512 Hz sondes
- 512 for small entries
- 2512 for main lines
- Attach in line or tape on

6V Battery Module:

- To add power to SR-2116x and the SR-2512
- Takes four "AAA"s
- Get amazing depths

Other Goldak Accessories

3330 "Tape-On":

- 116 KHz sonde
- Non-metallic pipe or conduit
- 1000s in the field

3350 "Bullet":

- Small entry 3/4"
- Non-metallic pipe or conduit
- Also 116 KHz

GC-2 Clamp:

- Inductive clamp
- Isolates lines
- Used with 5600, Triad, and 902

NE-77 & M-79:

- Used with the model 777
- Ultra sensitive microphones
- M-79 includes cable and listening bell, all in case
